DXpedition News

Pagula - 3C0A

3C0A will be leaving the island about the time you read this, but the station has been very workable since June 19, despite some less-than-optimal operating practices. For example, the SSB op was giving only a couple of letters of the call of the station worked, not the full call. This practice dramatically increases "insurance" calls, and suggests there'll be a lot of disappointed DXers who only thought they worked 3C0A.

The CW station was weak and fast on the West Coast, and the operator worked stations on frequency after saying he was listening up. The sideband operator announced a listening spread of 14210-220, and then made contacts from 14203 to 14228. He ran a bunch a QSOs on 14210, and then went QRT when everyone figured it out. He spent much time in list and net operation, as well. Meanwhile the transceive RTTY operation generated an enormous pileup, taking as much as five minutes per QSO. Nevertheless, 3C0A will knock Pagula of the Most Wanted list for any active DXer.

Market Reef - OJ0

Everything is on schedule for OH0MD/OJ0 July 8-15 (see I339). Martti Laine OH2BH warmed up with his OH0AM operation June 20-22. Stateside DXers worked him on 14025 or 14194 1845-0200Z (see Bandpass for low band activity.) QSL both via OH2BH.

Digital DXpedition to the North Atlantic

Tom Victor LA4LN and XYL Siri LA2SR will be /TF July 10-24, and /OY July 25-28, concentrating on Amtor, RTTY, and AX.25. Selcall's TFLN and OYLN respectively. QSL LA2SR, Box 31, Smestad, N-0309 Oslo 3.

Corsica - TK

Jocab Laib HB9TL will be /TK on Corsica July 9-August 7, specializing on 14 and 3.7 MHz. QSL Einfangstr. 39, CH-8580 Amriswil. Also look for TK5BL/TK03 on Cavallo Island until Sept. Sunrise 0400, sunset 1900Z.

Shortly Noted

- **Somalia** SV0EA (N3EKF) says he has a 601AA license, but no permission to bring equipment into the country. "Maybe next year," he says.
- **Hungary** is on 160. HG5A has been on 160 since mid-June. A handful of other stations have 160 permission. Thanks DXNS.
- **Solomons** H44JA is JR6CMB, who will be there through next year. Try 7080 SSB and 40 and 15 CW. QSL via JR6CMA.
- **Syria** OE5JTL/YK has been begging for QSOs on 20 SSB. Try 14170 2300-0200. VE2PAB/4U is also active.
- **Sovereign Bases** ZC4MR has been logged on 14030 at 2230 calling for USA.
- **South Cooks** G4ALL moves from Henderson Island (VR6HIJL) to ZK1 for the first three weeks in July. He camps out on 14023. QSL to his home call in September, when his ship, the Sir Walter Raleigh, completes its 20-nation tour. Also Bing VK2BCH is active as ZK1XV now.
- **Kure** - KH7 KH6JEB is back on Kure until July 12. Try 14309 at 0400. QSL home call.
- **New Caledonia** will sport a special FK25 prefix Aug. 9-Dec. 31 for the 25th anniversary of the local amateur radio association.
- **Chagos** - VQ9 W4QM (recently VQ9QM) says VQ9LD operated from a ship anchored in the lagoon. Sounds like /MM3, not VQ9.
- **4U1ITU** DL4NAC wrapped up a very successful operation from 4U1ITU last week. QSL these QSOs only to his home call (I340).
- **4X8T** during the All Asian was 4X6TT. QSL home call. Thanks Inside DX.
- **Tahiti** - FO FO0MIR (N5RM) and FO0ASJ (N5DD) kept Tahiti on the air recently. Meanwhile there are plenty of resident FO8s to work (soon to be FO4, 5). See Bandpass.
- **Lebanon** - OD OD5s AS, CN, PL, RF, RH, and SM frequent 20 SSB around 21-2300Z.
- **Bahrain** - A9 A92BE (ex-9G1SS) likes 14190 at 2300Z

The Next Sunspot Cycle

A favorite pastime of DXers at the bottom of the sunspot cycle is making predictions about the next sunspot peak. NOAA's Space Environment Services Center is getting into the act, predicting a peak sunspot number of about 100 in mid-1991. This is equivalent to a solar flux of about 150. More bad news is that they predict Cycle 21 will bottom out in late-1987. In the good news category, SESC says Cycle 22 will be "flat-topped" with a period of several years of good propagation around the peak. Better bands are coming soon for the patient DXer.

The 1986 Clipperton DXpedition

Two Views

"As expected, the Clipperton crew did another superb job. I could hear FO0XX trying to work stations that were next to impossible to copy, especially on 40. They called for Europe, Africa, USSR, etc., while hundreds of stations from South/North America and elsewhere patiently waited. I hope all the 'deserving' outside this hemisphere were able to make at least one contact." - John Skelepkowycz VE3IPR, editor Long Skip.

"The whopping 66.6% of all contacts with US stations, notwithstanding the pre-DXpedition promise to work those areas which had missed out earlier (EU, AF, etc), will cause a lot of grief to those European operators who will long remember FO0XX on 20 meter SSB with a good signal working W after W. The 20 meter SSB figures are just unbelievable: only 119 contacts with EU but 2485 with the USA!" - Bren G4DYO, Editor DX News Sheet.

[10% of FO0XX's QSOs were with Europe, mainly on 20 and 40 cw.]
